Board Member Hyland Recognizes Summer Interns

This week Board Member Gigi Hyland recognized the contributions made by the central office summer interns at a luncheon held in the Central Office. The event, hosted by our Office of Equal Opportunity Programs (EOP), highlighted the intern program and provided the interns an opportunity to share their experiences while working at NCUA over the last several months.

"The internship program is truly a win-win," Board Member Hyland said. "These talented students have assisted NCUA accomplish key projects and, in turn have gained valuable work experience as they formulate their career paths." Ms. Hyland presented each intern with a certificate for their outstanding performance.
